SUMMARY OF TESTING FOR DESIGN INFILTRATION RATES
 Original Data (L-01)

INFILTRATION TESTING SITES: The following table summarizes the results of the infiltration tests conducted at the sites listed below. The test results are presented in terms of the infiltration rate (inches per hour) and the estimated design infiltration rate (inches per hour) for each site. The test results are based on the data provided in the test reports and are subject to the limitations of the test method. The estimated design infiltration rate is based on the test results and is intended to be used for design purposes only.

DESIGN INFILTRATION RATES: The design infiltration rates for the sites listed below are based on the test results and are intended to be used for design purposes only. The design infiltration rates are presented in terms of the infiltration rate (inches per hour) and the estimated design infiltration rate (inches per hour) for each site.

TEST PIT NO.	TEST DATE	TEST RESULTS (INCHES PER HOUR)	DESIGN INFILTRATION RATE (INCHES PER HOUR)
