RE: Acceptance of Stormwater Pollution Prevention Plan (SWPPP) for
UHAUL Storage Facility- Corning Road
Horseheads, New York

Mr. Skebey,

We have completed a review of the following submitted information regarding the above referenced project.

- Stormwater Pollution Prevention Plan for UHAUL Storage Facility, Prepared by Marathon Engineering, Dated December 22, 2014, Received December 29, 2014, Stamped by a licensed engineer
- Erosion and Sediment Control Site Plan Drawing for UHaul Storage Facility, Prepared by Marathon Engineering, Dated December 19, 2014, Received December 29, 2014, Stamped by a licensed engineer
- Stormwater Pollution Prevention Plan revised narrative, prepared by Marathon Engineers, dated January 15, 2015
- NYS SHPO project location map dated January 15, 2015

Based upon my review of the above information, I believe the stormwater pollution prevention plan is consistent with the Town of Horseheads' Stormwater Management and Erosion and Sediment Control Ordinance. This acceptance is conditioned upon the following:

1. This acceptance only pertains to the proposed grading of the site and does not include approval of any future construction activity.

2. One set of final accepted site plan drawings and SWPPP with the executed acceptance stamp of the Chemung County Stormwater Coalition must be on site at all times during construction and site stabilization.

If you have any questions or comments regarding this letter, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink that reads "Jessica Verrigni". The signature is written in a cursive style with a large initial "J".
